

## **GUEST LECTURE SUMMARY REPORT**

**Title:** Good manufacturing practices (GMP)

**Date:** 23<sup>rd</sup> July 2019

**Guest Lecture By:** Mr. A. G .Raghu

Director, Strategy & Quality control

Arkgen Pharma private Ltd, Bangalore.

Consultant, Santhana Gopala consultants

Mr.Raghu delivered a guest lecture on 23<sup>rd</sup> of July, it has been a benefiting and meaningful content for the students and department. The programme started in afternoon at 3:00 PM. He delivered a lecture on the evolution of the concept GMP because of the Thalidomide disaster and the development of GMP to cGMP.

He discussed the needs and necessity of the documentation, material safety data sheets, line clearance, labelling and placing of all the materials used in their designated places. He explained various personal hygiene, sanitation programmes and medical tests done to the personnel regarding their health safety. He concluded the speech by describing about the 10 basic principles to be followed in every industry in order to maintain good manufacturing practices.

The seminar was attended by more than 35 members belonging to departments of Pharmaceutical Quality assurance, Regulatory affairs and Pharmaceutics, including the staff. The lecture was concluded at by 4:30 PM; the vote of thanks was given by Dr Shailesh .T on behalf of the department and college.
