

The one day symposium on “Indo – African Symposium on Pharmaceutical Nanosciences” was conducted at the auditorium, JSS College of Pharmacy, Udhagamandalam, Tamilnadu – India on 19th September-2015, which was jointly organized by JSS College of Pharmacy, Udhagamandalam & Association of Pharmacy Professionals(APP), Bhopal (MP), India.

There were 75 participants attended this symposium. The symposium focused the current trends and advancements in pharmaceutical nanosciences.

The following topics were covered:

- ❖ **Overview of Pharmaceutical Nano Drug Delivery Systems**
- ❖ **Green Synthesis of Silver Nanoparticles**
- ❖ **Nanoparticles and Their Anti-diabetic Activities**
- ❖ **Natural Medicinal Compounds Characterization by Nanotechnology**

It was very well received by the participants and explored chances for their advancement in the field of pharmaceutical nanosciences.

The following scientists/experts/professionals were delivered/ addressed the symposium:

1. **Dr.R.Jothi Ramalingam**, School of Natural Sciences, **Wolaita Soda University, Ethiopia**
2. **Dr. P.Sureshkumar**, Anna University, Trichy, Tamilnadu.
3. **Dr. Rajiv Dahiya**, President, Association of Pharmacy Professionals(APP), Bhopal (MP).
4. **Dr.Suresh.V.Chennupati**, Principal Nova college of pharmacy jangareddygudem (AP).

During the symposium, **Best oral presentation competition** was conducted for PhD scholars and **Mr. Sathya rama raj**, Department of Pharmacology won the Best oral presentation award.

On the whole, the symposium was extremely useful and fruitful and made several useful contacts for the benefit of Pharmacy students in India to bring new developments in the area of pharmaceutical nanosciences.I hereby submit my sincere thanks and acknowledgement to JSS University, Mysore my parent organization JSS College of pharmacy Udhagamandalam and Association of Pharmacy Professionals (APP for their support and encouragement with perfect logistics and guidance to make this symposium successful.
