**KINDLY NOTE THAT LEAVES ON MEDICAL GROUNDS DOESN'T HAVE ANY CONCESSION.**

Classes and clinical for some subjects are distributed for more than 1 academic year i.e., the attendance of 2 academics years is taken into consideration for computation of eligibility in a subject taught for 2 academic years even if there is no University Examination at the end of the first academic year for that subject.

It is compulsory for Repeaters and Detained students to attend classes in the failed subject/subjects and put up a minimum of 75% as applicable.

**Keeping in view the interest of parents and students, the college informs them about the shortage of attendance from time to time. However, the students can neither claim it as a right to be informed nor seek mercy for being unaware of shortages and their consequences.**

### **Note:**

A student is eligible to carryover one subject provided he fulfills the attendance criteria and should have appeared in all the examination subjects for that year. No carryover system for students having shortage of attendance, six months to be repeated.

## **CLINICS:**

The patients coming to the hospital are offering themselves for treatment, thereby giving an opportunity for young doctors to learn. Students are not doing any favour by treating these patients. Hence a sincere and humane approach is a must.

The students should learn the local language for better communication and management of patients.

The students must treat the patients under the supervision of the teaching staff and shall obtain approval at each step. Record of clinical work done has to be maintained and duly certified.
